

## **UPHOLSTERY FABRIC CARE AND MAINTENANCE**

### **Australian Standards AS2687-1997**

Do NOT use solvent based detergents, only water based cleaning agents should be used

Do NOT dry clean or machine wash. Protect from direct sunlight and heat sources, both direct and through heating vents.

Vacuum regularly with the soft brush attachment of the vacuum cleaner to remove dust and grit, then wipe with a soft, colourfast cloth dampened with plain water. This should be done as often as necessary or at least every 2-3 weeks.

When cleaning Upholstery do not rub excessively or too hard.

Always test on a non-visible area & ONLY Use a soft, colour fast or white cloth sponge.

Special note – Upholstery can be exposed to external factors such as body oils, hair, acidic perspiration & or dye transfer from clothing or linen. Regular cleaning will prolong the life

Always clean spills or stains immediately. It is best to have a professional clean your upholstered furniture on a regular basis and not wait until it is visibly dirty.

Deterioration due to incorrect or inadequate maintenance including deterioration caused by body oils, hair spray, gel mousse, perfume, deodorants, medication and dye penetration from clothes, cannot be considered a fault in the fabric and claims due to this will not be considered.
