ARCADIA 5PC LOUNGE

PRE ASSEMBLY PREPARATION

Before you start:

1. Choose a clean, level, spacious assembly area. Avoid hard surfaces that may damage the product
2. Take care when lifting. Product should be assembled as near as possible to the point of use
3. Ensure that you have all required contents for complete assembly
4. Always read the assembly instructions carefully before beginning assembly
5. Keep all hardware parts and packaging out of reach of small children
6. Do not over tighten the screws and bolts as this may damage the threads

Assembly for Arcadia 5Pce Lounge.

First of all preparation is paramount before you start to assemble.

The arms for sofa's are the same for armchair & 2 seater's but there is a left & right arm. Suggest you identify which is which and stack separately. To tell the difference note that there is a thread hole on back of arm on inside, that hole indicates which is which, holes face inwards.

Next bolts are the same for Chairs but different for Coffee & Side Table, please sort these into 3 piles small, medium & large. Note Medium & Large are for use on sofa's, small for use on Coffee & Side Table.

Assembly Instructions –Coffee & Side Tables

Note instruction are them same only 2 pieces are different size, Table Rim & Glass Panel. Take leg [B] refer to diagram for bracket protruding from side of leg with threaded hole, with the help of another person hold leg upside down and add table rim [A] by sliding into tube ensure you correct side up you should see thru table rim holes into threaded hole of bracket on leg.

Then take small bolt [D] with washer [E] insert into hole ensure that bolt is seated correctly by hand turn 2-3 times so bolt has gripped correctly. Do not tighten yet. Repeat for other 3 bolts. Again do not tighten yet. Add second leg in same fashion. Now with the help of a second person turn over product so it is on its feet. We do this to square up frame before you tightening bolts.

Have second person hold so product appears to be square then take tool [G] and tighten bolts till feel firm. Do not overtighten as you may damage threads. Then take bolt cover [F] and press onto all bolts. Next place Glass Panel [C] on squarely ready to go.

Assembly Instructions – Armchair & 2 Seat Sofa –Step 1

Note instruction are them same only 2 pieces are different size, Back Rest & Seat.

Start with back rest [C] and seat frame [D]. Join together as indicated in diagram ensure seat covering is facing correctly. Aline holes in back rest with threaded holes in seat frame. Take medium bolt [F] with washer [E] insert thru hole and by hand ensure to seat bolt correctly turn 3-4 times to ensure grip. Do not tighten yet. Repeat for all required holes Note armchair requires 2 bolts, while 2 seat sofa requires 3 bolts. Again do not tighten yet . Move to step 2

Assembly Instructions – Armchair & 2 Seat Sofa –Step 2

Note instruction are them same only 2 pieces are different size, Back Rest & Seat.

To add seat and back rest to arms. With the help of another person to hold while you add bolts. Lay 1 arm on side as indicated in diagram with thread holes facing up, aline holes in frame with threaded holes in arms. Start with back rest hole, take large bolt [G] with washer [E] insert thru hole into thread and by hand seat thread of bolt correctly by turning 3-4 times to ensure a good grip.

Do not tighten yet.

Move to seat section take medium blot [F] with washer [E] insert thru hole of seat frame and into threaded hole in arm. Seat thread correctly as above, repeat for other two bolts. Again do not tighten fully. Move to step 3

Assembly Instructions – Armchair & 2 Seat Sofa –Step 3

Note instruction are them same only 2 pieces are different size, Back Rest & Seat

Next lay other arm in same position as above. Repeat assembly as previously stated. Ensure a second person is holding frame work during this process. Now turn product that is standing on its feet, have second person help square up and hold in position while you take tool [I] and tighten all bolts, till firm. Note do not overtighten as you may damage threads. Once all tightened please add bolt covers [H] to all bolts. Ready for cushions

PRODUCT CARE & MAINTENANCE

Fabric Information

Fabrics used in outdoor product are not made of any special type of material; they do however use blends of common materials such as polyester, olefin & acrylic which perform best for intended purpose. These fabrics are not impervious to fading or mould, ensure cushions are always dry and put away when not in use.

Fabric Maintenance

It is important to keep fabric free of dust and or debris. Please vacuum at least every 2-3 weeks. Spot cleaning warm water & soft soap solution, sponge onto affected area till clean rinse area with clean sponge, pat dry with a soft clean cloth. Stubborn stains may be removed with fabric cleaner or if available steam cleaning is ok providing covers are left on filling and on gentle setting. Note do not use solvents, do not machine wash, do not tumble dry.

Glass Maintenance

Glass used is tempered for your safety; best results are to use placemats & coasters to avoid scratching surface. Keep dust free, with floating glass please lift and clean underside of glass with a soft clean cloth. Use of normal glass cleaning product is permissible but please rinse surrounding areas with clean water to avoid damage to wicker or paint on aluminium frame.

Textilene Sling Information

The Textilene sling is a synthetic material made from a mixture of fibres of polyester covered with a sheath of PVC, able to withstand compressive stresses, strains, atmospheric agents and UV rays.

For outside use properties of material have a proven track record, while still subject to fading strength will remain even after colour starts to fade. Shelf life again depends on location & environment, regular cleaning & storage for best results for longevity.

Textilene Sling Maintenance

Use a bucket filled with warm water & a soft soap, sponge over frame till clean, once clean rinse off with a hose, pat dry with a soft clean cloth before use. Every 4-6 weeks. Ensure not left wet for long periods of time to avoid mould build up.

Aluminium Frame Information

The majority of frames are mainly produced from aluminium, with the main benefit being a light weight product for easier use. Some designs require steel to be used in certain sections for added strength. While aluminium is rust resistant, bare metal can show signs of oxidation (red film) this does not constitute rust. Simply you are able to wipe or sand surface to remove oxidation mark.

Note you will need to touch up affected area with paint to stop from reoccurring. Steel itself has a lower resistance to elements than aluminium and will show signs of rust as it ages. Limited exposure & maintenance are best solutions for adding life to any furniture used in outside areas.

Aluminium Frame Maintenance

Use a bucket filled with warm water & a soft soap, sponge over frame till clean, once clean rinse off with a hose, pat dry with a soft clean cloth before use. Every 4-6 weeks.

Cushions

Rotate cushion if possible to share the wear, take in cushions when not in use & stored in a dry area. Should cushions get wet, please hang over chair frame to drip dry completely before using or storing. Cushion and sling fabric fading resulting from general wear and tear or from a failure to comply with these care and maintenance instructions are not covered under the warranty. Mould & mildew of cushions & slings is caused through atmospheric conditions, such as damp or poorly ventilated areas please check regularly for dampness.

WARNING SAFETY & ADVICE

Please be aware materials used in your furniture are not impervious to neglect, acts of god, abuse, alcohol spills, improper use of chemicals such as bleach or any solvent based product, products are limited in design for residential use only and not suitable for commercial use.

Please be aware that heat generated from barbeques and heaters will have an adverse effect on your furniture do not place furniture in close proximity to heat sources.

When moving tables, chairs, sofas or bench's always lift off the floor never drag. Most tables would require a 2 person lift doing so benefits yourself and furniture as dragging may cause damage to furniture and or surface on flooring.

Do not stand on furniture for your own safety & for the sake of the furniture

Never strike glass

Never drag or lean back chair, sofa, benchers whilst sitting on them

Tables, chairs, sofas & benches are not work benchers please only use as intended.

Fitting; bolts, nuts & screws should be checked periodically to ensure they are still firm.

Note do not over tighten.

Please secure furniture during in climatic weather, as lightweight aluminium can become a projectile

Please be aware of staining fabric; Suntan oil, alcohol, juices & other chemical may do permanent damage to your covering, should be cleaned immediately

General wear & tear on cushions, please rotate cushions were possible as filling will soften with use, replacement cushion fillings can be purchased from local upholster if required in future.

General wear & tear fabrics, most synthetic fabric resist pilling but pilling can occur from transference from other fabric that come in contact with material IE: Cotton clothing & or towels.

Do not allow children to play under tables.

In summary outdoor furniture products require care to provide you with many years of use. Best results are to combine maintenance and protection from environment + the use of an outdoor cover can give you better result with least amount of effort.

1 Year Warranty

A one (1) year warranty applies to product against any defect associated with faulty workmanship for a period of (1) year from date of purchase.

Furniture Solutions accepts no responsibility for defects caused by incorrect assembly, mishandling, acts of god, general wear & tear, stains from spills/vegetation, chipping/scratching, exposure to extreme heat/cold, mould/mildew, hardware corrosion, misuse of the products & defects caused by failure in duty of care for the product in accordance with the care instructions. Warranty only extends to original purchaser and is not transferable, except when given as a gift.

Duty of care:

While every attempt is made to supply product using quality components there is always a need from consumer to help ensure a long life of use for product.

*Proper use of item, only what it is designed to do.

*Regular maintenance and cleaning.

*Protecting product from the harsh environment: Pollution, mould, heat.

To extend the life of your outdoor furniture we recommend that furniture covers should be used on furniture which is used in areas not protected from elements. Caution should be used when using oils, lotions & other chemicals such as chlorine.

Instruction Manual – Have been written to suit individual materials used in construction, please retain for future use for duty of care, assembly, parts & component sizing.

Claim management:

To make a warranty claim, customers can either contact the retailer where the purchase was made or Furniture Solutions on contact details below. Proof of purchase will be required before proceeding with any claim. In the case of product defects providing photos may be able to speed up processing of the claim. If missing parts please refer to assembly instructions for identification of said part and contact either of the above.

"Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure".
