Dawson Recliner with Footstool

PRE-ASSEMBLY PREPARATION

Before you start:

1. Choose a clean, level, spacious assembly area. Avoid hard surfaces that may damage the product
2. Take care when lifting. Product should be assembled as near as possible to the point of use
3. Ensure that you have all required contents for complete assembly
4. Always read the assembly instructions carefully before beginning assembly.
5. Keep all hardware parts and packaging out of reach of small children.
6. Do not over tighten the screws and bolts as this may damage the threads

FEATURE'S AND OPERATING OF RECLINER

Operation of Recliner:

Locking of backrest in desired position.

The locking mechanism is design for variable recline positions, so you can find the preferred angle for siting.

Turn knob (locking arm) clockwise to lock and anti clockwise to loosen.

FEATURE:

Swivel base.

Complete 360 degree turning circle.

How to adjust the headrest

To adjust the headrest, grip the backside of the headrest and pull forward from both sides as shown

DO NOT pull from the side edges, as the material may tear

To adjust the headrest backward, push on both sides or use a forearm to evenly move the headrest

Caution:

Do not push in the center of the headrest, as this may cause the cushion to collapse

CARE AND MAINTENANCE

Varieties of materials are used in construction of “Recliner” furniture range, Such as Stainless Steel; Nickel plated steel; Chrome plated steel; Powder coated steel; Timber, Leather, PU synthetic fabric & a variety fabrics.

All will require some form of maintenance to extend the life of finishes and general appearance. Please see below instruction unique to your chosen model.

Zarrah Recliner Chair and footstool

Covering : Leather Full Hide with Corrected Grain

Base : Nickel plated steel

Leather Covering;

Keep dust free at all times.

Regular use a damp soft clean cloth and wipe down leather.

Pay special attention to areas where skin touches leather. IE : Armrest Pads, Headrest, front section of chair and footrest tops.

Please clean up spills immediately. Ensure to dry properly before use.

Periodic Leather Cleaning;

Every 3-4 months you need to give leather a good clean to remove excess body oils.

Please purchase a propriety leather cleaner and follow all directions indicated on packaging.

You could also purchase a leather conditioner/protector to complement the leather after a good clean.

Frequency of periodic cleaning can vary due to colour of leather, use and environment.

A chair used 2 hours a day will require less cleaning than a chair used 8 hours a day.

Areas of high humidity will require more cleaning than areas of low humidity.

Professional Cleaning;

Even the most diligent house keeper cannot always prevent leather from aging or looking tired.

We recommend you use the services of a reputable leather cleaning service when your cleaning does not appear to make a difference in appearance.

Things to know about leather;

The surface of leather can be affected by chemicals used in hair spray, gel, mousse, perfume, deodorants, some medications, alcohol and dye transference from clothing. Please factor this into your cleaning regime.

Nickel Plated Base;

Please remove dust and grit on metal as required.

When grease stains and tarnish begin to appear, you'll need to clean off your plating. By washing first with warm water, using a metal cleaner for persistent blemishes, and then polishing, you will keep your nickel plating strong and lustrous for years to come.

SAFETY WARNINGS AND ADVICE

Notices and Advice

Please be advised that products are limited in design for residential use only and are not suitable for commercial use.

Please be advised that materials used in your furniture are not impervious to neglect, acts of god, abuse, alcohol spills, improper use of chemicals such as bleach or any solvent based products.
